URBI MOBILITY

EXECUTIVE INVESTMENT MEMORANDUM & B2B PILOT CONTRACT

Confidential Dossier · Prepared for: **Steve** & Investment Committee · **Founder & Lead AI Architect:** Ing. Maamar Omar ARBOUZ · **Date:** October 2026

PART I: EXECUTIVE INVESTMENT MEMORANDUM

1. The Out-of-the-Box Category Creation

Western MaaS (Mobility-as-a-Service) startups such as Finland's Whim collapsed because they depended entirely on heavy municipal transit subsidies and rigid rail infrastructure. Conversely, ride-hailing platforms (e.g., Yassir, Heetch) face an insurmountable growth wall: an individual taxi ride at 800 DZD ($6) is completely unaffordable for 95% of daily commuting employees. **URBI Mobility pioneers a brand new category: The B2B Enterprise Transit OS & Cashless Network.**

THE B2B TROJAN HORSE & ZERO-HARDWARE ADVANTAGE

• **Pre-Funded Corporate SaaS:** Employers prepay employee subscriptions on the 1st of each month (3,000 DZD / ~$21 per employee/month). URBI slashes corporate transport expenditure by **33%** compared to leasing empty private minibuses.
• **Zero-Hardware Informal Network (15,000 Minibuses):** Rather than spending tens of millions buying bus fleets, URBI equips existing artisanal minibuses with dynamic dashboard QR codes. Drivers receive instant daily digital payouts via BaridiMob/Edahabia without paying POS hardware rental or high merchant fees.
• **3D Topographic Routing Moat:** Algiers features 120m of elevation change, 18% slopes, and narrow stairways between the Port and Hydra. Flat 2D maps (Google Maps) fail catastrophically. Our proprietary routing engine uses high-resolution 3D Digital Elevation Models (DEM) calibrated by a certified State Topographic Engineer.

2. Financial Trajectory & World-Class Unit Economics

URBI operates on a dual-engine monetization model: high-margin B2B SaaS recurring subscriptions paid by employers, complemented by a 5% to 7% commission on off-peak B2C employee rides.

Metric	Year 1 (2026–2027)	Year 2 (2027–2028)	Year 3 (2028–2029)
Active B2B Companies	35 companies	140 companies	420 companies
Active Daily Commuters	1,800 commuters	7,200 commuters	22,000 commuters
Gross ARR (Revenue)	**50,000,000 DZD** (~$350k)	**240,000,000 DZD** (~$1.7M)	**750,000,000 DZD** (~$5.2M)
Blended Gross Margin (%)	82 %	85 %	87 %
Operating Breakeven	**Month 12** (Operational)	Net Cash Flow Positive	Regional Expansion (Oran)

• **CAC B2B :** 45,000 DZD (~$310) per signed 50-employee SME.
• **LTV B2B :** 720,000 DZD (~$5,000) over a standard 24-month contract.
• **LTV / CAC Ratio : 16x** (Venture Capital gold standard benchmark is >3x).
• **Payback Period : 2.5 Months** from direct contract cash flows.

3. The Seed Round & Use of Funds (28,000,000 DZD / €200,000)

URBI is raising a Seed round of **28,000,000 DZD** (~€200,000 / $220,000 USD) at a **€1.35M Post-Money Valuation** (15% to 18% equity allocation). This capital provides **14 months of runway** to achieve operational breakeven at Month 12 with 50M DZD ARR. Allocation breakdown:
• **40% (11.2M DZD) · Direct B2B Enterprise Sales:** 3 dedicated senior business developers to convert 35 SMEs across Bab Ezzouar, Hydra, and Rouiba industrial corridors.
• **35% (9.8M DZD) · Banking Integrations & Clearinghouse:** API certification with GIE Monétique, SATIM, and Algérie Poste for instant reverse-clearing to drivers.
• **25% (7.0M DZD) · 3D Vector Topography & Sovereign Cloud:** High-resolution LiDAR/DEM acquisition and secure, legally compliant local cloud infrastructure.

PART II: B2B CORPORATE PILOT SERVICE AGREEMENT

Standard Fast-Track Agreement for Immediate Corporate Onboarding

This Corporate Mobility Pilot Agreement (the **'Agreement'**) is entered into as of the date of signature below, by and between:
1. PROVIDER: URBI Mobility (EdgeOrbit AI Division), represented by Ing. Maamar Omar ARBOUZ, Founder & CEO (hereinafter **'URBI'**), and
2. CLIENT: The corporate entity designated in the execution block below (hereinafter **'Client'**).

ARTICLE 1: OBJECT & SCOPE OF THE PILOT

URBI agrees to implement a 30-day corporate pilot transit program for the Client covering **50 to 100 commuting employees** across designated business commute corridors in Greater Algiers (including Bab Ezzouar, Hydra, Rouiba, and Oued Smar). The pilot replaces or optimizes Client's existing private minibus leases using URBI's dynamic virtual fleet routing algorithm.

ARTICLE 2: DELIVERABLES & PLATFORM ACCESS

During the 30-day pilot, URBI shall deliver: (a) Comprehensive Origin-Destination (OD) topographic clustering of all participating employees; (b) Access to the URBI HR Management Web Dashboard for real-time employee attendance and bus location tracking; (c) Digital mobile boarding passes integrated with BaridiMob/Edahabia; (d) Real-time automated SMS and push notifications for arrival times at designated pick-up waypoints.

ARTICLE 3: FINANCIAL TERMS & PILOT FEE

The total fixed consideration for the 30-day pilot deployment is **$15,000 USD** (or **2,000,000 DZD** net of applicable taxes). Payment is due 100% upfront upon contract execution to initialize route geofencing, cloud server provisioning, and driver onboarding.

ARTICLE 4: PERFORMANCE GUARANTEE (-25% TO -35% COST REDUCTION)

URBI warrants that the Client's post-pilot full-scale contract will yield a minimum of **25% to 35% net cash savings** compared to Client's historical private minibus expenditure for identical employee capacity. If URBI fails to demonstrate this minimum cost efficiency at the conclusion of the 30-day pilot, Client shall be entitled to an immediate 100% refund of the pilot fee upon request.

ARTICLE 5: INTELLECTUAL PROPERTY & DATA PRIVACY

All algorithms, software, 3D topographic models, and platform architectures remain the sole proprietary property of URBI Mobility. Client employee data (names, home GPS coordinates, shift hours) shall be treated under strict confidentiality and processed in full compliance with Algerian Law 18-07 on personal data protection and national digital sovereignty standards.

ARTICLE 6: TRANSITION TO ANNUAL MASTER AGREEMENT

Upon successful completion of the pilot, Client shall have the exclusive right of first refusal to lock in URBI's enterprise tier pricing (3,000 DZD / employee / month) under a 12-month or 24-month Master Corporate Transit Agreement.

ARTICLE 7: SIGNATURE & EXECUTION BLOCK
